Implementation

Implementing inAPI in eSanjeevani OPD seamlessly integrated video communication into the telemedicine platform, offering a user-friendly experience for patients and healthcare providers. Patients could initiate video consultations via the app or website, while doctors conducted virtual visits using tools and features from inAPI.

Challenge

Increased Access: Patients from remote or underserved areas gained access to healthcare services without the need for physical travel.

Enhanced Patient Experience: Patients reported high levels of satisfaction with the convenience and quality of telemedicine consultations.

Improved Efficiency: Healthcare providers could conduct consultations more efficiently, reducing wait times and optimizing their schedules.

Scalability: The platform's infrastructure, powered by inAPI, enabled seamless scaling to accommodate a growing number of users and consultations.

10,00,00,000 Tele-consultation!

देश के नागरिकों को घर बैठे एक्सपर्ट डॉक्टर की सलाह उपलब्ध करवाते हुए, देश ने आज 10 करोड़ 'ई-संजीवनी टेली-कंसल्टेशन' का लक्ष्य हासिल कर लिया है।

PM @NarendraModi जी के नेतृत्व में देश डिजिटल हेल्थ इकोसिस्टिम में निरंतर मज़बूत हो रहा है।
